EXPLANATORY STATEMENT

The following Explanatory Statement, pursuant to Section 102 of the Companies Act, 2013 ("the Act"), sets out all material facts relating to the business mentioned at Item No. 4 & 5 of the accompanying Notice dated February 19, 2015:

Item No. 4

The explanatory statement for item no. 4 is provided though strictly not required as per Section 102 of the Act.

M/s B S R & Co. LLP Chartered Accountants, Mumbai (ICAI Firm Registration No. 101248W/W-100022) were appointed as the Statutory Auditors of the Company for the Financial Year 2014 at the Annual General Meeting (AGM) of the Company held on May 14, 2014 and hold office until the conclusion of the ensuing Annual General Meeting of the Company. M/s B S R & Co. LLP has been the Statutory Auditors of the Company since Financial Year 2008 and has completed a term of 7 years.

In terms of Section 139 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, a listed company cannot appoint or re-appoint an audit firm as an Auditor for more than two terms of five consecutive years. The period for which the firm has held office as Auditor prior to the commencement of the Companies Act, 2013 shall be taken into account for calculating the period of 10 (Ten) consecutive years. Further Section 139 of the Companies Act, 2013 has also provided a period of 3 (Three) years from the date of commencement of the Act to comply with this requirement.

Accordingly, the Company had proposed to the current auditors for the above appointment in the ensuing Annual General Meeting of the Company to be held on June 29, 2015 for a further term of 3 years as required under the provisions of the Companies Act, 2013 and rules made thereunder. However, the Statutory Auditors of the Company have expressed their unwillingness to be appointed as the Statutory Auditors of the Company for the next term.

In lieu of the above, the Company had approached M/s B S R & Associates LLP Chartered Accountants, Mumbai (ICAI Firm Registration No.116231W/W-100024), a LLP firm under the same network of audit firm (M/s. B S R & Associates) as that of the outgoing auditors. The Company has received a letter from them providing consent to the above appointment and to the effect that their appointment, if made would meet the requirements of the provisions of the Companies Act, 2013 and the rules made thereunder.

Since the proposed auditors are associated with the outgoing auditor firm and work under the same network of audit firm (M/s. B S R & Associates), their appointment would be also for a term of next three years as provided under the provisions of the Companies Act, 2013 and rules made thereunder.

Hence, M/s B S R & Associates LLP, being eligible for appointment and based on the recommendation of the Audit Committee, the Board of Directors has, at its meeting held on February 19, 2015 proposed the appointment of M/s B S R & Associates LLP as the Statutory Auditors of the Company for a period of three years to hold office from the conclusion of this Annual General Meeting till the conclusion of the Twenty-Ninth Annual General Meeting of the Company to be held in the year 2018. (subject to the ratification of their appointment at every Annual General Meeting)

The Board recommends the Resolution at Item No. 4 for approval by the members.

None of the Directors or Key Managerial Personnel (KMP) or relatives of Directors and KMP is concerned or interested in the Resolution at Item no. 4 of the accompanying Notice.

Item No. 5

The Board of Directors ('the Board') appointed Mr. Angelo Ferrari (DIN: 00436116) as an Additional Director of the Company on February 19, 2015, pursuant to Section 161 of the Act and Article 139 of the Articles of Association of the Company on the recommendations of the Nomination and Remuneration Committee of the Board. Under Section 161 of the Act, Mr. Angelo Ferrari ceases to hold office at this Annual General Meeting but is eligible for appointment as a Director. He is not disqualified from being appointed as a Director in terms of Section 164 of the Act and has given his consent to act as Director. Notice under Section 160 of the Act has been received from a Member signifying his intention to propose Mr. Ferrari's appointment as a Director along with the deposit of the requisite amount.

Brief Information of Mr. Angelo Ferrari is given in the Information attached to the Notice.

The Board considers it desirable that the Company should continue to avail of the services of Mr. Angelo Ferrari and accordingly recommends the Resolution at Item No. 5 for approval by the Members.

Mr. Angelo Ferrari is not related to any other Director of the Company.

Except Mr. Robert Scannell (DIN: 06818489), the Non-Executive Director of the Company and Mr. Angelo Ferrari, none of the other Directors, Key Managerial Personnel and their relatives, are interested in the resolution.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS

De Nora India Limited (DNIL) is engaged in the manufacture and coating of anode and cathode for electrolytic process for several industrial applications like for instance in the chlor-alkali industry, water and waste water treatment, pulp and paper manufacturing, surface finishing and plating industries and cathodic protection systems of steel structure and of cement. All these applications are developing starting from the expertise of its main shareholder in electrolytic processes and in catalytic coatings.

DNIL was set up with technical and financial collaboration of "Gruppo De Nora" of Italy, a world market leader in this segment. The Company's core business lies in Chlor-alkali sector, which is highly cyclic in nature. In order to reduce the fluctuation of turnover, the Company expanded its activities in other markets, introducing and then manufacturing in its factory important technologies such for instance Cathodic Protection Systems, Electrochlorination Systems, and Platinized Titanium Anodes for surface finish application. Over the years DNIL established itself as a recognized leader of the industries it serves with high standard of quality of its products and services.

Recoating of anode and cathode is a specialised process, formulation of which involves use of noble metals. These formulations and processes are proprietary and because of its affiliation to "Gruppo De Nora", the Company has the authority to use these formulations and processes, giving it the prominent market share in India. DNIL not only provides support to Chlorine Engineers, Krupp Uhde and Severn Trent De Nora customers in India but is also equipped to give technical support to all other technology suppliers of electrolytic processes sector.

OPPORTUNITIES AND THREATS

The Goa factory is equipped with all the necessary equipment and facilities to meet the demands of the Chlor-alkali industry. The Company continues to remain the market leader in the Chlor-alkali and Cathodic Protection Systems business. The main activity of the Company is dependent on recoating of electrode for membrane cell electrolyzers in chlor-alkali plant, which is cyclic in nature because the life of the coating lasts for 6 to 8 years, now since plants have become older the cycle is flating, resulting in lower risks.

The income from recoating business contributes a major share in Company's total income and lesser demand for recoating business due to the cyclic nature was the main cause for reduced turnover during this year. The Mercury Cell Plants are gradually being converted into Membrane Cell Plants. Your Company does not get the business of Anode/Cathodes coating at this conversion stage since these are inbuilt in the new cells and the complete set of cell elements are imported by the customers. Your Company

is not in the business of manufacturing membrane cell elements and the recoating business in respect of these anode/cathodes will happen only after 8 years.

ELECTROCHEMICAL PRODUCTS PERFORMANCE

The Company registered turnover of Rs. 305.21 million during the year from the sale of its products.

OUTLOOK

The Company is looking forward to maintain its position of market leader in membrane recoating activity and cathodic protection systems. The Directors are hopeful that ongoing efforts made in the field of chlorate cells fabrication would pave way for the future growth of the Company.

DNIL has successfully developed the new business of supplying special electrodes for water treatment mainly for treating pharmaceutical waste water. DNIL was able to achieve the expected business in 2014 & looks forward to continue to develop this biz segment in 2015 as well. DNIL is also continuing to market new products of De Nora Next namely: Solar Mac NGO™ & Giselle.

RISKS & CONCERNS

Excessive dependency on Chlor-alkali business increases risks and the Company is taking steps to minimize this risk by developing the market of its other products as well as introducing new products/technologies in the market. The electrochlorination business is hampered by severe price competition due to entry of various small competitors having significant influence in their limited area of operation. The electrochlorination business requires aggressive pricing and several distributors in the territory.

The major area of concern for the Company is the impact in contribution caused by the uncontrollable changes in the raw material cost. The Company tries to minimise the risk by incorporating Price Variance Clause in the Orders. In the event the Company is not able to enforce the Price Variance Clause in the Orders, the secondary option is placing the order for full quantity of noble metals soon after signing of each big order, even if the project execution is of a longer duration.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an effective and adequate system of internal control, commensurate with the size and nature of the business of the Company. Checks and balances are in place to ensure the reliability and accuracy of accounting data. The systems are aimed at ensuring adherence to policies. A system of validation, approval and authorization, physical safeguards and access restrictions are given utmost importance.

The internal control is supplemented by Internal Audit conducted by Independent Auditors on a quarterly basis. The reports of the Internal Auditors, their findings, recommendations and the compliance thereof, are

reviewed by the Management and the Audit Committee of the Board of Directors. The adequacy of the internal control systems is also examined by the Statutory Auditors of the Company.

FINANCIAL PERFORMANCE

During the financial year under review, the Company achieved a turnover (Sales and other income) of Rs. 327.66 millions and the Profit after Tax of Rs. 42.52 millions.

MATERIAL DEVELOPMENT IN HUMAN RESOURCE

Human resources continue to be a key thrust area. The Company's relationship with the work force and the union continues to be very cordial indicating the prevalence of high degree of excellent relationship between employees and management. The management has been able to develop a harmonious and cordial industrial relations environment in the Company through regular, periodic meetings with the employees' representatives. Issues of concerns of employees are resolved through mutual, collaborative and participative discussions.

The Company has also continuously endeavored towards improving gender diversity and creating a safe, just and fair workplace for its employees. In line with the provisions of the 'The Sexual Harassment of Women at Workplace

(Prevention of Sexual Harassment Avoidance and Redressal) Act, 2013, the Company has formed an Internal Complaints Committee (ICC) with set guidelines to address issues of sexual harassment at the work place towards any woman associates. The Company is committed to providing equal opportunities without regard to their race, caste, sex, religion, colour, nationality, disability etc. All the women employees (permanent, temporary, contractual and trainees) as well as any women visiting the Company's premises or women service providers are allowed to have access to the ICC. All employees are treated with dignity with a view to maintain a work environment free of sexual harassment whether physical, verbal or psychological.

CAUTIONARY STATEMENT

Estimates and expectations stated in this Management Discussion and Analysis may be "forward-looking" statements within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to your Company's operations include economic conditions affecting demand / supply and price conditions in the domestic and international markets, changes in the Government regulations, tax laws, statutes and other incidental factors.

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation at the balance sheet date by an independent actuary using the Projected Unit Credit Method. Actuarial gains and losses are recognised immediately in the Statement of profit and loss.

(c) *Other Long-term employment benefits*

Compensated absences which are expected to occur beyond twelve months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation which is determined at each balance sheet date based on an actuarial valuation by an independent actuary using the Projected Unit Credit Method. Actuarial gains and losses are recognized immediately in the Statement of profit and loss.

2.14 Taxation

Income tax expense comprises current tax and deferred tax charge or credit. Provision for current tax is determined as the amount of tax payable in respect of taxable income for the period in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax on timing differences between taxable income and accounting income is accounted for, using the tax rates and the tax laws enacted or substantially enacted as on the balance sheet date. Deferred tax assets other than on unabsorbed tax depreciation and unabsorbed tax losses are recognized only to the extent that there is a reasonable certainty of their realization. Deferred tax assets on unabsorbed tax depreciation and unabsorbed tax losses are recognized only to the extent that there is virtual certainty of their realization supported by convincing evidence. Deferred tax assets are reviewed as at each Balance Sheet date to reassess realization.

2.15 Provisions and contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.
